

Solution of Week 8: Rectangles

$$3+1+1+1+1+3 = 10$$

$$4+4+4+1+2 = 15$$

$$4+4+1.5+1.5 = 11$$

$$4+4+4+1.75+1.75+1.5+3 = 20$$

If we look at the data of the three examples above, we see that an edge of the biggest square is accepted as 2 unit and an edge of the smallest square is accepted as 0.5 unit. After that, only calculating the fields.
